University of Florida Health Science Center
The UF Health Science Center comprises numerous centers and institutes such as the Clinical and Translational Science Institute, the Institute on Aging, the Institute for Child Health Policy, the McKnight Brain Institute, the Center for Movement Disorders and Neurorestoration, the Center for Traumatic Brain Injury Studies, and the newly formed Center for Respiratory Research and Rehabilitation.

Gainesville facts
• Located in the heart of North Florida — central to Jacksonville, Orlando and Tampa and equidistant to the Atlantic Ocean and the Gulf of Mexico
• A place of great natural beauty with crystal clear springs, Paynes Prairie State Park, and miles of trails and waterways
• A lively historic downtown, with the Hippodrome State Theater, numerous innovative restaurants, and major art festivals
• A cultural hotspot, with UF’s Curtis M. Phillips Center for the Performing Arts, the Samuel P. Harn Museum, and the Florida Museum of Natural History
• A regional leader in business incubation and a growing hub for technology start-ups
• Excellent public schools — Alachua County students have the highest SAT scores in the state

It's great to be a Florida Gator!

Why UF OT?

• Outstanding academic and training programs that include an entry level Master of Occupational Therapy and a PhD in Rehabilitation Science
• Graduate program is ranked third among public AAU universities by U.S. News & World Report and is overall ranked among the top 17 occupational therapy departments in the country
• Active research programs in driving rehabilitation, community mobility and learning disabilities
• Co-leader in the NIH-funded K12 Rehabilitation Research Career Development consortium, with support for early career investigators
• Home of the Institute for Mobility, Activity and Participation and the Florida Institute on Disability and Rehabilitation
• Opportunities to collaborate with a rich community of national and international researchers in rehabilitation and related fields
• Professional development opportunities for occupational therapy practitioners and others, via online education programs
• Annual Sandra Edwards Colloquium with rich opportunities to strengthen the clinician-scientist model
• UF Occupational Therapy alumni hold leadership positions in state and national professional and clinical organizations

The UF Department of Occupational Therapy is situated in a hub of research and educational activity that provides a wealth of interdisciplinary collaborative opportunities. The department is located in the UF Health Science Center, the nation’s only academic health center with six health-related colleges located on a single, contiguous campus. The Health Science Center is closely affiliated with UF Health and its hospitals. The Malcom Randall VA Medical Center, a tertiary care and active teaching hospital, is located adjacent to the Health Science Center.

UF facts

• UF is ranked no. 14 in the U.S. News & World Report “Top Public Universities” and no. 3 in Kiplinger’s “Best Values in Public Colleges.”
• UF is the state’s oldest and most comprehensive university, and one of the nation’s most academically diverse public universities.
• UF is home to 16 colleges and more than 150 research centers and institutes.
• UF has more than 4,000 faculty members with distinguished records in teaching, research and service, including 34 Eminent Scholar chairs and 42 faculty elections to the National Academy of Sciences, Engineering, the Institute of Medicine, or the American Academy of Arts and Sciences.
• UF's Health Science Center received more than $323 million in research awards in 2014-2015.
